Education

- **Bilkent University** — Ankara, Turkey
  Bachelor of Science - Electrical and Electronics Engineering; GPA: 3.97/4.00 — *Sep 2024 - present*
  ***Rank:** 3/174*
- **Bilkent University** — Ankara, Turkey
  Bachelor of Science - Physics; GPA: 3.97/4.00 — *Sep 2025 - present*
  ***Rank:** 2/45*
- **Mustafa Kemal Final High School** — Ankara, Turkey
  Mathematics and Science; GPA: 99.82/100 — *Aug 2022 - Jun 2024*
  ***Rank:** 2/150*

Honors and Awards

- Ranked 1st in the quantitative section of the nationwide university entrance exam (YKS) - Jun, 2024
- Ranked 12th Foreign Language Test (English) (YDT) section of the nationwide university entrance exam (YKS) - Jun, 2024
- Won Bilkent University Comprehensive Scholarship, which consists of a monthly stipend and a full tuition waiver - Sep, 2024
- Won Cahit Arf Scholarship (former Turkish Prime Ministry Scholarship) due to university entrance exam success - Sep, 2024
- Have been on Bilkent University High Honor List in all semesters up to now - present
- Received a grade of 141 out of 150 in the PAE exam conducted by the Bilkent University. - Sep, 2024

Skills

- **Programming Languages/HDLs**: Python, MATLAB, VHDL, LaTeX
- **IDEs/Softwares**: Xilinx Vivado, LTSpice
- **Languages**: Turkish (mother tongue), English (fluent)

Courses Passed with A+

- **PHYS 101** : General Physics I
- **PHYS 102** : General Physics II
- **MATH 102** : Calculus II
- **MATH 241** : Engineering Mathematics I
- **MATH 242** : Engineering Mathematics II
- **EEE 102** : Digital Logic Design
- **EEE 211** : Analog Electronics

Projects

- **PHYS 211 Waves and Optics Course Project**: Designed and constructed a laser microphone that uses an interferometric approach to modulate a laser based on the vibrations in a mirror caused by audio, and then demodulates that laser through analog circuitry.
- **EEE 211 Analog Electronics Course Project**: Assembled a transceiver operating in the 27 MHz amateur band. Components were soldered by hand and laboratory devices were used to test and troubleshoot the device.
- **EEE 102 Digital Logic Design Course Project**: Coded and implemented a driving game in VHDL language that uses the VGA port to interface with the monitor and a joystick to receive input from the player.
